Sellers Acknowledgement to Perform Prepurchase Examinations

A potential conflict of interest exists when a veterinarian from our office examines a horse owned by a client of this practice. The seller must realize that in this situation the veterinarian performing the examination is working for, and in the sole interest of, the purchaser. The seller should realize that because our office has records and history relating to the horse in question and can only conduct the prepurchase examination with full disclosure of all information available, we are in a unique and sometimes overly knowledgeable position to find fault with the animal in question.

This being said, the seller's signature below releases South Mountain Equine and the examining veterinarian to disclose to the buyer all medical records available concerning the horse offered for sale to the prospective buyer, his or her representatives and others that the buyer may indicate.

The seller must also realize that all information obtained during the examination and discussions relating to these findings are privileged information between the veterinarian and the purchaser or his or her agent(s). This information can only be made available to the seller with the consent of the buyer. The seller's signature below indicates the seller has read these statements and agrees to hold harmless South Mountain Equine and the examining veterinarian from any real or perceived loss in the present or future value of the horse as a result the examination and the opinions rendered therein.
